

Better Management,  
Bigger Profits

Eliminate tokens; use wireless PIN numbers  
to activate your ball dispenser.

POS integration; print wireless PIN numbers  
right on your POS receipt!

### Better Management, Bigger Profits

**REDUCE THEFT!**

e-range allows you to manage prepaid customer accounts; collect interest on the money customers have deposited, and gives you the cash up front. It can pay for itself in less than a week.

e-range can track every basket dispensed by your range ball dispenser. You can balance employee's cash to the actual sales at the dispenser, even weeks after their shift. You can print a report showing exactly what happened at the ball dispenser on that shift.

e-range can deactivate a lost or stolen account and replace it instantly with an accurate balance.

Golf Course driving range privileges can be managed more efficiently; use e-range to eliminate token hoarding and free distribution of tokens to non-members.

Point of Sale integration with some of the most popular POS systems. Print a PIN number right on your POS receipt.

e-range gives you information at your fingertips about your sales and customer purchasing habits. Sales graphs and reports for the week, month, and customer activity can be reviewed and printed.

e-range is the best Range Management System available today. Warranted even against lightning strikes!

**CARDS ARE  
OBSOLETE!**

**Use wireless  
PIN numbers**

**erange works even if your computer fails or is not turned on.**

**POS Software Integration** - Print single-use PIN numbers on your point of sales receipts

**POS Revalue Integration** - See your POS company for status.

Live Update - Automatically download the latest e-range update (requires internet connection)

Corporate Version allows your customers to use their accounts at your other range properties.

**e-range CommLink! even easier to use**

**e-range CommLink can be wireless (option) with multiple dispensers.\*\***

**e-range CommLink can use a communication cable from the dispensers to a computer.\*\***

**e-range CommLink Systems have a range of 4000 feet wired or 300 feet wireless**

**e-range is not computer dependant. If your computer fails, the system still works!**

**Happy Hour Pricing - Change the selling price automatically at preset times of the day**

All versions of e-range PC software require a PC or laptop running Windows with an unused 9 Pin serial port or USB port  
Version e-range 6.0 and Version 8.0 require any printer capable of printing on 8.5 x 11" paper to print reports.

\* Requires any POS or receipt printer with an installed compatible windows printer driver.

\*\* additional hardware for communication is included, however the computer needs another unused serial port.
